## Terms of tutorial program:

Before any individual tutorial support is assigned, students are **required** to meet with their professor and get this form signed off. The SARC mandates this as the first step to encourage students to interact with their instructors and receive initial support and/or recommendations. After the initial meeting, if the professor believes that additional tutorial support is necessary the student will be assigned a tutor from our program. Most importantly, students must attend class in order to receive tutorial support from the SARC.
